

## Death by Deception

Consume deficient/toxic foodstuffs promoted as healthy food by the food industry and allowed by the FDA ->

Weakened body gets symptoms from toxins and lack of basic nutrition ->

Trip to medical system for foreign synthetic substance to heal your symptoms ->

Initial symptoms abated, but weakened body now more toxic from drugs so new symptoms arise ->

Return to medical system for battery of tests and diagnosis for disease label ->

Addition of new drugs added to treat "incurable" disease ->

Hospitalized due to degenerated state but now exposed to new risks of medical mistakes and infectious pathogens and also fed more deficient/toxic foodstuffs at the hospital ->

Your symptoms are treated till your death while you pray for the doctors, wonder how this "disease" came upon you, and hope the foreign synthetic medical drugs will heal you ->

If a born-again Christian you are taken to heaven where you get the revelation that: unnatural foreign synthetic substances do not heal, that God is the healer and has designed your body to heal itself, and that the Biblical principles of cleansing the temple, not eating unclean things, eating Biblical foods as God created them, and that the leaves of the trees for the healing of the nations were truths for living on planet earth ->

If not a born-again Christian you are taken to hell to live eternally in torment of soul and body.
